Political Violence Protection

Now Included in Your Clements Worldwide Physical Damage Auto Policy

As part of our commitment to continue delivering the best coverage for our customers around the world, Clements Worldwide is proud to announce the inclusion of Political Violence coverage for your physical damage auto insurance, effective May 1, 2013.

Given newly emerging risks confronted by expatriates on a daily basis, no international car insurance policy should be without protection against losses due to riots, strikes and malicious damages, among other perils generated by political violence. Clements customers recognized this need. As a result, you can now have the peace of mind you need knowing that your vehicle is also covered against political violence losses.

This value-added coverage is brought to you exclusively by Clements Worldwide, given our extensive expatriate expertise, with more than 66 years service serving the needs of professionals operating outside of their home country.

- Ensuing fire damage and ensuing loss by looting
