

THE LEAGUE

Understanding THE LEAGUE Health Plan's Deductibles & co-Insurance

Dear League Associates,

Here are the current deductibles and co-insurance for your group plan:

- **\$2,500** deductible per person inside the USA with an 80%/20% co-insurance for the first \$10,000 of eligible medical expenses. Your share of the co-insurance is 20% or a potential \$2,000 if expenses run over \$10,000.
- **\$0.00** deductible per person outside the USA with 100% (no-coinsurance) paid on eligible medical expenses.
- **Important:** IMG offers an “Accumulative Family Deductible” equal to 2 times the individual deductible. What does this mean?

Example: If you have a family of 5 and everyone hits \$1,000 of their deductible...then the deductible for everyone has been met and the co-insurance listed above begins.

Insurance is a matter of economics. Renewal rates are factored upon the amount of premiums received versus the claims that are paid out. Simply put...**claims drive renewal rates!**

It is no secret that USA medical treatment is expensive vs. treatment in many places overseas. “Obamacare”, HIPPA, the FDA, malpractice and medical liability (un-needed testing) all contribute to runaway costs.

***Currently**, your insurance plan offers you worldwide coverage, but also incentivizes you to consider getting your medical treatment overseas placing the decision in your hands!

Deductible: The dollar amount of Eligible Medical Expenses, specified in the Declaration, that the Insured Person must pay per Calendar Year prior to receiving benefits under this insurance, and exclusive of Coinsurance. USA medical care is available although the deductible limits have been raised overseas to \$2500 per person (2 deductible family limit).

- For this next year, you have a \$2,500 deductible per person inside the USA with an 80%/20% co-insurance (using the PPO network directory) for the first \$10,000 of eligible medical expenses. Your share of the co-insurance is 20% or a potential \$2,000 if expenses run over \$10,000. If you go out of network, there is a 40%/60% co-insurance. Your share of the co-insurance is 60% or a potential \$6,000 if expenses run over \$10,000.
- However, if you use the **Medical Concierge** service (see below), the co-insurance drops to 85%/15% of the first \$5,000 or a potential of \$750. Make sure you take advantage of this!
- **\$0.00 deductible** per person outside the USA with 100% (no-coinsurance) paid on eligible medical expenses treated overseas. This is a good deal!
- An additional Deductible of \$250 will be applied for each Emergency Room visit for Treatment of an Illness which does not result in a direct Hospital admission.

An interesting trend that has taken off is Medical Tourism. A whole industry has been created to allow North Americans to find high quality world class health care overseas at a reduced cost to what they are charged inside the USA. Akeso Care Management can help you find a Dr. and facility that is near you!

On this page we will touch briefly on the incentives. We will go into more detail on a future communication.

Over-seas Incentives – we will discuss this in further detail in future communications. Right now and in the future, if you choose to have your medical treatment overseas requiring an overnight stay in the hospital, **The League's** IMG health plan will pay you \$400 per night (up to 10 nights per year) to incentivize your decision on where to have your procedures done. This financial incentive is in addition to paying your eligible medical bills per the certificate wording.

Medical Travel Management Benefit

This benefit is designed to reward the insured who elects to receive certain non-emergency medical procedures overseas where medical care is generally less expensive than in the U.S. The Medical Travel Management benefit offers the insured person, who is contemplating non-emergency medical treatment in the United States, the opportunity to be financially compensated for having that care rendered by a qualified medical provider(s) outside of the U.S. When treatment is received outside of the U.S. and outside of the insured's country of service and there is greater than \$10,000 cost savings to the Plan, the insured will personally share in any cost savings that is realized. The cost savings are calculated using the average U.S. cost of the medical service compared to the actual costs of the medical procedure and associated medical travel costs performed by the non-US based provider(s).

**These benefits combined with a \$0.00 deductible and NO overseas coinsurance are worth considering.
The choice is yours!!**

Meanwhile while inside the USA...

Special Benefit When Using the USA Medical Concierge Service:

When the Insured Person obtains Treatment and incurs Eligible Medical Expenses from a Physician, other healthcare provider or Hospital chosen by the Insured Person through use of our USA Medical Concierge Service, irrespective of whether the provider is within the US PPO Network – The Company will:

-- After the Deductible, the plan will pay 85% of all Eligible Medical Expenses up to US \$5,000, then 100% to the Maximum Limit per Insured Person, per Calendar Year. In order to qualify for these enhanced benefits, the Insured must contact the Company immediately upon the recommendation

by a healthcare provider that the Insured Person seek any of the following Treatments:

- In-Patient Treatment or Surgery in Hospital
